Serial No. 09/434,161

For: **PACKET DATA RECORDING/REPRODUCING APPARATUS****RESPONSE TO ELECTION REQUIREMENT WITH TRAVERSE**Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Official Action mailed March 5, 2004, consonant with the requirement set forth therein applicants provisionally elect herein species II, identified by the Examiner as relating to the embodiment illustrated by Fig. 8, for further prosecution in the application. Applicants submit that claims 3-4, 20-21 and 22 are readable on the (provisionally) elected species.

However, applicants respectfully traverse the requirement for the following reasons.

It is first noted that the Examiner has already considered, and examined, *all* pending species and that, accordingly, prosecution would be expedited by continued examination of all species in the present application.

Serial No. 09/434,161

Corrected Response to Office Action Mailed March 5, 2004
April 5, 2004

Thus, in the Action of July 30 2003, claims 3, 20, 22, 38, 40 and 41, along with claims 4, 21, 39 and 42-44 dependent therefrom (each relating to recording method or apparatus), as well as claims 14, 16 and 23 along with claims 15 and 24 dependent therefrom (each relating to reproducing method or apparatus) and claim 28 and claims 29-32 dependent therefrom (relating to a receiver) were each considered and examined by the Examiner.

In response to the prior Action, applicants amended claims 14, 16 and 23 to add thereto (and to claims depending therefrom) recording method or apparatus, as previously present in the application. Claims 28 and 29 were also amended.

It is thus respectfully submitted that the prior amendment did not introduce limitations to claims 14, 16 and 23 which had not been previously considered and examined, and therefore that the prior amendment did not present any basis for belatedly requiring restriction/election of the application claims.

Therefore, it is courteously requested that the election requirement be withdrawn, and that prosecution of all claims relating to recording or reproduction, specifically claims 3, 20, 22, 38, 40 and 41, as well as claims 14, 16 and 23, along with claims 4, 21, 39, 42-44, 15 and 24 dependent therefrom, continue in the present application.

If the Examiner nonetheless requires further restriction and election, however, applicants respectfully request that the claims readable on species VII and VIII, illustrated in Figs. 9 and 10 for example, should be examined in the application. That is, applicants submit that the subject matter of claims 14-15 and 23-24 (readable on Fig. 9)

and claim 16 (readable on Fig. 10) is closely pertinent to the subject matter of claims 3-4, 20-21 and 22, which are readable on elected species II.

Accordingly, having provisionally elected claims 3-4, 20-21 and 22 for further prosecution, applicants submit and request that claims 14-15, 16 and 23-24 should properly be examined in the present application.

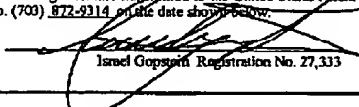

Having fully responded to the election requirement of March 5, 2004, applicants submit that further examination of the merits of the application is in order and the same is courteously requested.

The Examiner is requested to inform the undersigned if any further issues or questions should arise with respect to the application.

Respectfully submitted,
CLARK & BRODY
